

UFO and the STATE

I'd like to begin this presentation by immediately going to the bottom line:
THERE ARE NO EVIL ALIENS! PERIOD.

As many of you may know, I had the great privilege of working side by side at Fairchild Industries with the late Dr. Wernher von Braun for the last four years of his life. As I have said in other venues, von Braun taught me that, in the future, there would be a push to base weapons in space. He said, the final excuse to do this, to emplace these space-based weapons, would be the warning, a lie, that we must protect ourselves from an attack from space by a hostile alien life form. Von Braun called this "the last card."

Contrary to the propaganda that some are using to frighten us, I can tell you on great authority that humans are not, I repeat, are NOT, fighting with aliens in space or on earth. Also, there are no abductions occurring now. In fact, I can tell you with absolute certainty, assurances that I personally have had from the ETs themselves, that they are ready to land by invitation to share what they know in order to help us survive the various insults with which we have assaulted our Mother Earth. They have shown us what they are capable of doing. They can shut down our missiles-without weapons. They simply have no intention of harming us or enslaving us as some would have us believe for their own purposes. The question, of course, is what IS the purpose of those who seek to instill fear in our hearts?

Their purpose, of course, is to make us afraid. This is always the purpose of those who profit from war and conflict: to make us afraid. The great American writer George Orwell once said, “Every war when it comes, or before it comes, is represented not as a war but as an act of self-defense against a homicidal maniac.”

They are not going to interfere to save us. They will leave if humans set off a nuclear bomb with intention to harm, OR if we place weapons in outer space. They have done no experimenting on humans for several years-not since they discovered why some of us live in the light while others preach war and destruction.

They come from other locations in the universes and they function in dimensions. They do not live inside this earth as some seem to think. They have met with millions of humans and warned about nuclear weapons and other threats to humanity. They are no threat to humanity or our environment. They are here and more can come if invited to where they will be able to arrive and land without getting shot down. They know how to materialize and de-materialize and how to survive and travel enormous distances. They have learned how to use their mind/consciousness. They are real. UFOs are real. Earth’s weapons are ineffective against them. They have shown they can shut down our missiles –without weapons. This is part of the message and awareness they say humanity is now ready to receive. But they also know many humans have egos that are stuck in various belief systems. Clearly, for whatever reasons, some of us may not be ready to accept this reality.

On the other hand, more and more humans are opening to a higher frequency of consciousness and, because of this, it is possible that humanity can evolve in time to save itself from extinction. Maybe! Unfortunately, like it or not, unless we rapidly evolve a consciousness of peace, there are strong indications that we, our human species, will not survive for more than about ten years, not if we continue down the path we are travelling. As an ET said to me, “There are no guarantees due to the huMan ego.”

Thus, we are at a crossroads. I pray that those assembled here understand that at this crossroads, at this critical time: one road leads to peaceful cooperation with those entities who are here to help us, while the other road leads to catastrophic war and death.

These are messages I’ve brought to you from real live ETs. With this statement I, for the first time, admit in public that I have been visited by ETs. One encounter occurred in Phoenix, Arizona. Just a few years ago. I was there to deliver a speech at a conference. In the hotel room with me was a highly respected psychologist, Dr. Robert Zanger. He came to talk because I had founded a space institute and he thought I might know what was going on. He was concerned that there would be wide-spread panic if and when an extra-terrestrial culture manifested itself on earth. He thought it would be a good idea to set up counseling centers to help people who were frightened by such an event.

Our visitors came in through the wall! They stayed for about an hour and a half during which time I was able to speak to them and receive their responses. All of this interaction

happened telepathically. They gave me absolute assurances that they were not hostile, none are, and they were only here to encourage us to take the correct road that will lead us to peace. I have also been onboard one of their craft. And, along with approximately 80 others, I have seen a massive UFO slowly fly by, very low and very close.

Some statements I've made through the years were messages imparted to me by our space brothers and sisters. But until now I never credited the source of this information I received. I was told by the ETs to not speak until I was certain it was the right time and place, and to the right people.

The title of my talk today is "UFOs and the STATE." This title is vitally important because it refers to the impact UFOs can and will have on the STATE, on every country, as well as on the "state" of all living beings, on our environment, and on our planet.

But first I would like to take this opportunity to thank Alexander Semyonov, President of the Association of "Ecology of the Unknown" and Professor Timur Timerbulatov, President of the KONTI Group, for giving me this extraordinary opportunity to speak with you in this Presidium at Siegel Readings, December, 2017. And I'd like to thank President Vladimir Putin for his continued call for maintaining peace and encouraging cooperative international ventures in outer space with a Treaty to ensure that no nation will imperil this peace with the introduction of space-based weapons that would change the current dynamic forever, thrusting us down the dark path of confrontation and violence. The Treaty is currently entitled the **Treaty on the Prevention of the Placement of Weapons in Outer Space**. After you hear my remarks, I hope you will reach out to all world leaders to quickly sign this Treaty, thus making it into binding world law. This is a pivotal step.

After four decades of my work in this arena, I must confess: the day I received this invitation, I was planning to retire. I was giving up. I've been focused on this for so many years, day and night. Nothing I've done has changed our path at this crossroads. We are, therefore, ever closer to our own human extinction and the extinction of our fellow creatures on this beautiful planet. In other words, because we are manipulated by those who profit, and/or who function with actions based on beliefs that are based on lies, we face more suffering and destruction taking place every day. Game over!

But then I read the incredible biographies of Alex and Timur, and some brilliant papers that have been previously presented here in the past by a group of individuals who are reporting the real facts with ideas, vision, and thought important to the UFO and space issue.

In the USA, there are several groups formed around the UFO issue in the arenas of ufology, exopolitics, secret space programs and conspiracy theories. The point of view of these groups leans towards our need to fight or defend ourselves against an "evil alien threat." I can tell you, I worked in an industry where stories like this are created to get votes for bigger budgets for more and better weapons...often under the guise of the need to

produce new technology. But there is an evil alien belief system undercurrent spreading, though sometimes hidden, that is ludicrous. I've addressed a handful of these kinds of UFO conferences, but not one of them stood for supporting peace in space with the ETs. In the U.S., people are often taught to hate and fear. Violence, disinformation, distractions, discrediting and lies prevail around any issue related to the evolution of our consciousness concerning the UFO reality. Commonly, I do not address this issue. I focus on the Treaty and cooperation in space. But it's time!

Those who preach war and fear, of course, tell us we need space-based weapons to protect our country from other hostile nations, the first being, naturally, Russia. China. Or, now, North Korea. How many identifying of the next and next so-called enemies have YOU lived through. Since I'm here publicly confessing to various "demonized" behavior I've observed, I will also confess that my husband and I voted for now President Donald Trump. For one reason and one reason only: because he said during his presidential campaign, "Wouldn't it be better to be friends with Russia than enemies?" And for saying that, he is vilified, with people around him now being investigated for possible collusion with this country, with Russia.

In the context of how UFOs impact States, countries, and the state of every life and our environment, what could be more important, especially in terms of being able to apply this issue to enhancing relationships and to our very survival? Of course, other than to paint little green beings or make joke about the UFO reality, this issue is not taken seriously in most circles, or, significantly, in the media. But worse, as an educator, I'm sad to discover that many in the upper echelons of the military industrial intelligence government Complex in the U.S. are uneducable. They either don't believe in the ET reality, don't want to hear about this, deny it, or collapse in terror believing the evil aliens are coming to steal, enslave, or harm. There are too many belief systems, interpretations and perceptions. People don't know how to discern for that the truth is about this issue, and who is telling it. There are no coordinators in the public, in defense, or in social, governmental, scientific, or industry arenas that support the reality that NONE of them are hostile. So all information disclosed generally gets warped into the evil alien scenarios. I pay no attention. It's more important to search out like minds who will support each others' fact-based research and have it applied where it can do some good. Talking to most in that UFO arena, though they are often very nice, is a waste of time for me. Because we need real changes in how this issue is perceived and acted upon. **RIGHT NOW!**

Consider this: right now there is only international cooperation in space. But please hear this: three UFO conference coordinators have told me that peaceful cooperation in space will not sell tickets! In the U.S. there is a common phrase that is often used to explain something: "Follow the money." Sad, but true.

For the first time, just in the past few short weeks, I've been watching greater than ever space and defense conferences going on, but no mention of the UFO issue. And new organizations forming to support human evolution into space, new technologies, etc. backed by highly credentialed men from deep in the intelligence, defense, intelligence,

government jobs (ie. CIA, DARPA., DIA, NSA, military branches, NASA, Lockheed (Skunkworks), Boeing, etc.) openly touting their credentials while subtly supporting at least one organizational founder well known for his evil alien/nuke 'em in space agenda. All seeking funds, of course. You'll see members of the Congress to the Complex supporting weapons and wars: follow the \$\$\$. You are going to see more propaganda about cooperation and space and exciting innovations, also, but behind the scenes is an agenda related to producing and deploying weapons for space. In military lore, the mandate in battle is always "Take the high ground." The troops that take the high ground control everything below. The ultimate high ground is, of course, in our time, space...the space above all our heads. Seize the high ground, space, and you control everything and everyone on earth and in space from space. That is the real purpose of emplacing weapons in space. It is not really about fighting so-called evil aliens. That's just yet another enemy to use as an excuse. These so-called enemies, including antagonizing them, are only excuses for basing weapons in space. The so-called alien threat is "the Last Card" that von Braun predicted would be played. I testified to von Braun's warning at the famous press conference called The Disclosure Project held at The National Press Club in Washington, D.C. in 2001.

But no matter what is going on in any department or organization right now to collect and analyze data and funds, it is being done in the context of fear...the old earthbound "national security" mandate. As if a space-based weapon could solve any problem! What is most important to do is to literally create the reality we want, of course, putting all of our time and energy, our full consciousness into creating an entirely new game to replace the war gaming. Uncovering the old game is good to do. But it's been done, and is continually. But only a handful of us, for now, respect the vital impact UFOs have, can have, and will have on the State, the countries, and on the "state" of all lives and our environment...for the good. Here, today, is where a new educational process can begin. This new process must be aimed at our nation leaders, who are concerned about their "national security," and among all who can influence them. And especially in the media, to let them know that aliens, ETs, visiting cosmic cultures, are here and come in peace, and are not fighting in space. They obviously have traveled distances and come with great information and insights that we desperately need. Right now! Because the most important thing we can do is to create the reality we want...and that will not happen if humans place weapons above all our heads, pointed down and up. And, because we are in the accelerating human extinction process, if humanity has any chance at all of surviving our species, we'd better gather our best information and get the ban on space-based weapons fast...or weapons will be deployed. And this is why I'm here. To present to you a rationale and real action steps that we can each do...SO easily. Easy but also very, very urgent.

One UFO conference after another, selling books that are cranked out quoting each other's fictions as though they are facts; many evil alien films, documentaries, photos, and speeches and more including TV series bearing that evil alien fiction, that terribly destructive myth...could present you positive visions!

I phoned Elon Musk, the producer of the Tesla automobile who is now sending rockets to the International Space Station as well, to request one statement of support for maintaining space as a peaceful environment. His top people told me that he will not make a statement about peace in space. There it is again: Follow the money! And famed scientist Steven Hawking also assures us and warns us, from his wheelchair, that we do need to be afraid of ETs.

But I've kept going, because I made a promise to this wonderful but dying man, Dr. Wernher von Braun, known in the United States as the "Father of Rocketry." After nearly four years working with this great visionary, who had been through so much under Hitler and who simply wanted to get humans into space to explore...when he was dying, I promised him I would undertake the mission he gave me to prevent the placement of weapons in outer space. I have done my best through the institute I founded in Washington, D.C. to influence Congressional players, starting a movement with I'm told about 50 million people, testifying before the US House and Senate, intelligence communities, grass roots to corporations, but the war gaming goes on. And the stated plan of the U.S. is to dominate and control everything on earth and in space, from space. I promised him I'd do all I can to prevent the "weaponization" of space...specifically the basing of weapons in space. Incidentally I use the term "weaponization" to replace the phrase that was commonly used: "militarization" of space because our militaries ARE in space to help, not to fight. The militarization of space is different from that on earth, as so far it's peaceful in space.

So I read the impressive biographies of Alex and Timur, and some previously presented reports presented at Ziegler's Readings. I was, as we say in English, "blown away." I wanted to come here to hug them for doing all that they have done. And I realized as well, that this is my final opportunity to present something that might help to stimulate an action, and to pass the torch.

Alex and Timur suggested this brilliant title: "UFOs and the State." To me this means that, with all the turmoil we are experiencing on this planet, if President Putin will look into what UFOs bring to the State, to know about this reality, the truth, he will see this is a once-in-a-lifetime opportunity to ban all space-based weapons and to reap the enormous benefits. He sees steps ahead. And he will call upon world leaders to sign this Treaty, immediately, as he's a martial artist and also understands timing...now to keep space weapons-free. If he will do this, he will not only be acknowledged for yet another Russian First in Space, making his country people proud, but will be known as the first President who opened new portals of consciousness and portals to the universes. Unlimited benefits will be going directly to the State, and to all those who join him. And with this step for peace, imagine the world celebration!

I am sure you know President Putin is very smart. And when you think about all the world's leaders, I think you will agree that he is "the one" for us to reach at this moment to

ask him to call on all world leaders to sign the updated Treaty on the Prevention of the Placement of Weapons in Outer Space. Russia and China introduced this Treaty originally. The current Treaty is just an updated version produced when President Putin called for input in 2008. We put a team together to do this update that included Apollo Astronaut, Dr. Edgar Mitchell, Commanders (retired) Will Miller and Dr. Scott Jones, Boeing 37 year aerospace executive Abe Kriger, and Former Minister of Defense of Canada, Paul Hellyer, who has said that this Treaty is “the most important document of our time.” It now incorporates the best of all relevant previous, current, and proposed treaties. There is no need for stalling, for rewrites or debates. We are out of time because the deployment of space-based weapons is imminent. And once there, there is no turning back. No, this would be forever an extension of the mindset that creates more wars, always, of course, under the guise of it being for “national defense.” The good news is, everyone and everything is in place.

I’m now going to share with you something that also has not been said in public before. This Treaty has been guided by ETs. They have told some of us that once this is signed into binding earth law, that adheres to universal laws and principals, they will come in and land, and share vitally important information with us. They don’t sign Treaties. We do. And the information in this Treaty is information about an agreement that will help us survive...and allow the ETs to come in safely. As many of us are now aware, we are on the verge of human extinction, some experts say within the next ten years. About two weeks before I came to Russia, there was, for example, a news item that said that a major meteorological organization was warning us that the levels of Atmospheric CO₂ are now the highest in 8000,000 years! And that world methane map! Plus the list of feed-back loops that are leading us to fast extinction.

And, for the State that signs this Treaty first, that State, or those States, will be the first to experience the opening of portals! Exciting! And here will come the answers to so many questions regarding UFOs and the Cosmos: from structures of the universes, ether matoms, protons, etc., to how to heal and clean up our environments (water, food, air, land, shelter...) to how to end wars and care for our children and other sacred life. As von Braun taught me: keeping space free of weapons is what will make it possible for budgets and brains to be applied to researching and developing projects he envisioned not only to go into space, but to find urgently needed solutions and the direct benefits and opportunities for all on earth.

Von Braun and I developed an award-winning film series called, *It’s Your Turn* based on what women, minorities, and youth could do with careers and jobs in the fields of science and technology. Inevitably, when he was too ill, I gave his speeches for him. The first of those speeches was to 18,000 educators during which he transmitted what I was to say into my left ear without a phone! He taught me what ESP and out of body non-local consciousness is and what it can do. WE are that consciousness. Now we just need a president who functions in that frequency to touch others with it.

As von Braun would say, “Technology is just an extension of the mind.” Let’s create a sample of an educational system that will provide global education, via satellite, with needs and cultures respected around the world. There is one photo of me with him at the first press conference I ever attended, in 1974. We are standing under the ATS-6 educational satellite antenna. We created educational programs across the U.S. using that satellite, for doctor and nurse training programs, diagnostic health experiments in remote areas of Alaska. And then the satellite was loaned to India where people were shown how to plant rice crops in monsoon areas, and how to present entertainment shows in the evenings to help keep population growth contained. I saw how every child and adult could be educated via satellite. And now we see how your new ideas and information can be networked, world wide, in seconds!

But the most amazing part of this episode with von Braun was when I gave that first speech to the 18,000 educators in his place as he was too ill with cancer to attend. Von Braun had told me not to worry because he’d be there, he’d call, if I needed help introducing a live satellite demonstration. But, there was no phone on the podium. Suddenly, von Braun was speaking in my left ear, transmitting that first speech, and I’d like to repeat, without a telephone! What the mind can do! Yet there were people who would try to discredit this great man, with lies. How many times have I heard he was a NAZI who worked with enslaved prisoners. But the reality was that he could only work with highly educated technical experts. He was even imprisoned for trying to get better conditions for prisoners when he found out about them. There are so many von Braun stories I wish I had time to share. The bottom line is that it is time for all of us to tell the truth, especially about ETs and UFOs because, in those days, he didn’t dare speak out. But he was a master of consciousness, a creator of realities. This is the truth about that great and brilliant man. As someone who worked with him day in and day out, I can tell you that this is true. And all humans have tremendous capabilities...

Von Braun had a secret friend who was also experimenting with consciousness, alternative ways of thinking and being. Dr. Timothy Leary. Von Braun agreed that, since Dr. Leary was experimenting with LSD and other drugs and plants to expand consciousness, they would not announce their friendship, to protect von Braun’s reputation. You can see von Braun appearing in a “negative” film photo in the first pages of Dr. Leary’s book, *The Intelligence Agents*. Leary’s methods, though, as in those mind expanding experiments were even more controversial than they are today: no wonder, as those in control would not want ordinary people to know about what we humans are actually capable of doing when not being dumbed down and controlled by fear and carefully taught “beliefs.” The day I first met Timothy, in the sixties, he placed a tiny piece of paper on my tongue that I thought was a science experiment. Well, actually, it was. As had I then learned what von Braun tried to say as he spoke of human potential! I could see through a solid wall to what was on the other side, stand in front of a mirror and think myself to disappear. I could see inside my body to the structures and systems keeping me alive, with no x-ray machine. Go out of body and travel around the world and into space without a rocket. So Timothy Leary was often discredited, ridiculed, even imprisoned. This is why we must all tell the

truth now. I had my fingers on the pulse of Timothy's neck as he "de-animated." I knew he was dead. Right?! The hospice nurse who was there pronounced him dead. But, I heard his voice telling me to go behind his dresser and get the camera he had placed there. I thought I must be hallucinating. But, I did what he directed me to do, and there **was** a camera taped to the back of his dresser. Then he said, "Take my picture." But, hey, I had already heard von Braun telling me from a distant location, "This is how C-U band and K band work." Another lesson in consciousness. Life after death. A realm from where, in fact, we may be receiving our ideas and insights. Finally, Timothy had his chance to go into space, that is, to launch his cremated remains into space on a rocket taking off from the Spanish Canary Islands. His ashes went up with the ashes of 26 others, including Dr. Gerard O'Neil, author of *The High Frontier*, rocket scientist Krafft Ehrlicke, and Star Trek creator Gene Roddenberry. When Dr. Leary was dying, I asked him if he had any final message and just before he died, he said to me, "We are the light, and it's our job to shine the light on others. Ride the light into space where we shall all meet again." And, as the rocket was launched from the Canary Islands with cremated remains in vials strapped to the rocket, I literally heard Timothy laughing as the rocket with his ashes blasted off. Carved on his vial was the message: "PEACE LOVE LIGHT YOU ME ONE"

What has all this got to do with UFOs and the STATE? It's all about consciousness. ETs imparted many things to me about consciousness. It's about what we can create, in the context of bringing all the good information being researched and presented **here**, and more. Because it is this new information that is going to awaken us to the common reality and message that we too often ignore midst so many distractions.

Right now many humans are stuck in their egos and in belief systems they believe are reality. They want the ability to shoot – to shoot UFOs down. How stupid some of us are. Once, while talking with my close friend, Dr. Edgar Mitchell, I asked him, "What am I doing wrong? Am I not articulating this issue well enough? Why are people not hearing me?" And he responded, "Carol, Carol, we're a stupid species." And no wonder there is so much suffering in destroyed environments on this tiny ball of mud where perpetual wars continue, where one to 200 species a day are disappearing, where we've created 400 million orphans, suffering babies alone, and where we have allowed our sources of water, food, and air to become so contaminated with toxins and poisons that many of us can no longer breathe well and suffer from an epidemic of cancer and so many other serious illnesses.

My friend, Dr. John Lilly, in his many books, taught us about the brain as a computer, and showed us how, in the Flotation Tank he invented, to experience the extreme quiet we need to reach deeply into our inner and outer space, hear our breath and heartbeat, and heal. And, of course, he was the first scientist to communicate with dolphins and other animals. My friend, Ric O'Barry still works to save captive and wild dolphins, and whales from slaughter. I'm always tempted to flee human habitation and move in with gorillas because humans kill and gorillas are happy sitting and eating berries and playing with their babies. I hesitate to mention this because as I stand here speaking to you, the Bureau of Land

Management in the United States is to murder 90 to 100 thousand healthy, beautiful wild horses in the United States. And the hunters still go for tusks and trophy kills to hang on their walls and photo ops.

Considering these facts, I think we must ask ourselves, are we even capable of evolving sufficiently to invite the ETs in?

Another friend, Buckminster Fuller, you may know of his Bucky Ball and geodesic dome, invited many of us to play his "World Game." He observed that about 1 per cent of the population on this our "Space Ship Earth" makes up a critical mass...and said that tuned together could create a new reality on our "ship." And I must mention my friend, Lt. Col. Jim Channon who created The First Earth Battalion. I was made a General in that battalion of peace, General Rosin!!!, for bringing a fax machine into my three hour presentation to top managers of the CIA when during a coffee break, with a Lt. Col. Friend, I connected the fax machine to the CIA phone line making it possible for a few friends to fax messages into this meeting. And the title of that CIA briefing? "You Can't Keep Secrets Any More."

Writing this, I'm reminded of my very first meeting with von Braun when I giggled about something he said about asteroids. Later he told me to "always keep my sense of humor because one day things would get very serious."

Imagine being a President of Your State right now. So many issues to handle. While this UFO issue is the most important. You wouldn't know all about it. So I'm going to write come basic questions, and in CAPITAL letters you will find the answers to this "briefing."

Is there any unified U.S. center that collects and analyzes information about the UFO? NO OFFICIALLY- ONLY USAPS - Unacknowledged Special Access Programs

SEE MOVIE "UNACKNOWLEDGED" (Now on NETFILX); COVERT USAPS TRACK ALL ETV (Extraterrestrial Vehicles) IN REAL TIME VIA SATELLITES WITH NEUTRINO LIGHT DETECTORS THAT DETECT ET CRAFT AS THEY STEP-DOWN OUT OF TRANS-DIMENSIONAL FIELDS INTO 3D SPACE/TIME. SUCH OPS ARE TS-SCI (TOP SECRET SPECIAL COMPARTMENTED INFORMATION) - VERY HIGHLY COMPARTMENTALIZED. AIR FORCE AND NRO (NATIONAL RECONNAISSANCE OFFIC) AND OTHER AGENCIES COORDINATE ON A DEEP LEVEL; MAJIC (THE MAJORITY INTELLIGENCE COMMITTEE) MANAGES THE SUBJECT.

Anything in the State Department or government, military, industry, intelligence arenas...that collects and analyzes UFO information? SEE ABOVE - TS - SCI OPS THAT ARE USAPS AND COMPLETELY UNACKNOWLEDGED ARE EMBEDDED IN ALL AGENCIES AND RELEVANT INDUSTRIES, THE MEDIA ETC. LOCKHEED MARTIN SKUNKWORKS, NORTHROP GRUMMAN, BOEING, BAE SYSTEMS, E-SYSTEMS, BOOZ ALLEN HAMILTON, AND MANY OTHER COMPANIES

CONTRACT. AEROSPACE COMPANIES HAVE TS-SCI OPS BUILDING MAN-MADE UFOS ; GRAVITY CONTROL WAS ACHIEVED IN OCTOBER 1954 AND HAS BEEN EXPLOITED FULLY BY NOW

Are there any independent centers in the branches of the armed services focused on UFO? ONLY USAPS; NONE THAT ARE PUBLIC

The Academy of Sciences? OPERATIVES THERE PREVENT THE SUBJECT FROM BEING STUDIED OPENLY AND MAINLY RIDICULE (PSY-OPS) THE SUBJECT Anywhere else?

Is there any cooperation between public and amateur studies of UFO? THERE IS NO OVERT GOV. / PUBLIC EFFORT. COVERT GOV. USAP OPERATIVES HAVE PENETRATED / INFILTRATED ALL CIVILIAN UFO ORGANIZATIONS GLOBALLY SINCE THE 1950'S.

Does UFO research effect any technical, technological, political, ideological, analytical philosophical, etc., developments? IT EFFECTS ALL OF THEM PROFOUNDLY. IF THE MATTER IS DISCLOSED HONESTLY AND FULLY AND NOT IN THE OLD CONTEXT IN WHICH HUMANS ARE AFRAID OR CONCERNED ABOUT "NATIONAL SECURITY," ALL THESE AREAS WILL BE TRANSFORMED QUICKLY.

Does UFO study result in taking into account in outer space activities in making decisions on military-political questions?

If not, what needs to be done to start a state study of the UFO? THE REGULAR GOVERNMENT (NOT USAP) IS CLUELESS ABOUT THE REALITY OF THE MATTER AND DOES NOT UNDERSTAND ANY OF THE KEY ELEMENTS ABOVE, OR INCLUDING THE FACT THAT THERE IS NO THREAT FROM UFO/ET. THIS INCLUDES MOST US PRESIDENTS, AND VIRTUALLY ALL US SENATORS AND CONGRESSMEMBERS - THE FEW WHO DO KNOW ARE ASSETS OF MAJIC AND ARE EMBEDDED TO KILL ANY DISCLOSURE OR RELATED EFFORTS PROVING THEY COME IN PEACE, AND MISLEAD THEIR COLLEAGUES.

Were there any UFO incidents in the USA that attracted practical institutions from the State structures side? SINCE WWII, UFO EVENTS HAVE BEEN STUDIED, DOWNED ET CRAFT REVERSE ENGINEERED, ETC., BUT ONLY IN TS-SCI OPS THAT HAVE BECOME USAPS.

And those are just a few of the important questions that pop up in people's minds, and certainly will in our leader's mind, as we proceed taking steps that will get this Treaty signed so the whole old game will change. Fortunately, we have a Treaty to make what we need so simple. President Putin has a head start in knowing about peace in space. The answers to the above questions all lead to the necessity to maintain only cooperation in space, and a readiness to bring in the UFO. Did you notice that "government is clueless?"

And so, there is the place where we can move in to support this president. PS. Still trying to keep our sense of humor.

In the early seventies, I started working closely with Apollo Astronaut Dr. Edgar Mitchell, the sixth man on the moon and the founder of the Institute of Noetic Sciences. He courageously tried to tell people we are not alone, that NONE of the ETs are hostile, and that humanity needs to get the Treaty signed to keep the peace in space so we can have peace on earth. When I founded my Institute for Security and Cooperation in Outer Space, Edgar was Chairman of my Advisory Board that included Honorary Chair, Sir Arthur C. Clarke and science and famed science fiction author who wrote over 500 books, Dr. Issac Asimov. I mention these names because they simply had great ideas like you do, ideas that awakened me and changed my life. From these great men, I learned that what we all must urgently do is to bring Truth (with a capital "T") to the world's leaders, who, if they can accept the UFO truth, can make a difference. If we can accomplish this, we will have changed the game and gathered support for all you are doing, and for the survival of all life on earth.

But right now the reality of what is occurring is not all peaches and cream! On the contrary, it's more lemons and onions: it's about producing the next layers of weapons systems. It's about credentialed, dumbed-down, controlled sell-outs who present an *appearance* of caring about or reporting on what happens in space: about new inventions for travel and important uses for zero point energy. It's about the UFO presence merely as violent entertainment and messages in forthcoming movies and television series about evil aliens, angels, and demons, often with an emphasis on demons...not love.

But, as Alex and Timur reached out to touch **me**, if I can do anything to touch **you**, to pass the torch I've been holding aloft all these years in a way that you will take it and run with it, in this that is possibly the last speech I will ever give, I'm here to do just that, to touch your hearts and minds.

In my prayers at quiet times, I have been continually told that it is very important for me to meet with, look into the eyes of President Putin. I am certain that he has the wisdom to know what to do.

And I know it is important for you to do this one thing, if you will accept this mission: contact President Putin. Share with him your most positive visions of how the Treaty and the revelation of the UFO reality will have a positive impact on the STATE of Mother Russia, her inhabitants, and her environment.

As organizations form and continually update, something you may not know is that the new Vice President of the United States, Vice President Pence, has been named to head a new National Space Council which is based on humans moving into space safely and profitably: to use space to build a national security system that will supposedly defend us. Of course, unfortunately, we also have people preparing to fight a war in space and from

space. Fortunately, we are in a country, here in Russia, whose president has called for peace and cooperation in space. And, as we speak, more and more countries are joining together in agreements for joint space ventures. So this is the perfect moment in history for President Putin to call all world leaders together who want peace to come forward to sign this Treaty that will keep the peace in space, for peace on earth.

There is a United States Air Force booklet called "Vision 2020." This book still represents the profit and security position of the United States...based on domination and control. I hope with all my heart that that old game of secrets and lies is about to end. As everything in space is now, thanks to all the cooperative ventures, verifiable. And enforcement takes place in space by the nature of this cooperation...not with weapons based in space. In other words, NOW is the time for us to help create the new vision based on the impact of the reality of UFOs and the STATE!

I'd now like to suggest that we could come out of this event with the invention of a new world in space game that will be very important and exciting, a game perhaps called something like "UFOs and the STATE." Apps, games, comic books, books, movies, documentaries, TV series, speeches, new kinds of media interviews, corporate profits on peaceful products and services, a new marketplace for new jobs and training programs and better ways of living, end to poverty and illnesses, respect for all sacred life and homes for all including the orphans, a new marketplace of products and services that can be applied directly to solving urgent and potential earth problems.. Unlimited numbers of Earth and Cosmos players will be invited to join in and play this new, exciting reality game. And everyone wins! We can credit Alex and Timur for this title and this inspiration while, at the same time, honoring the dream of Felix Zeigel and the work of the Ecology of the Unknown and KONTI. To run this game, we're going to need a good chess player, so the Honorary Executive Producer of this new game will be President Vladimir Putin, with additional producers he will designate as they accept his invitation to join him in the signing of the Treaty on the Prevention of the Placement of Weapons in Outer Space. This simply assures that, as the new world in space game proceeds, there will be no space-based weapons. This game will be based on cooperative civil, commercial, entrepreneurial, and military space ventures that apply direct benefits to humanity and all animals and sacred life and to our environments...benefits yet to be known about until the new portals open. There will be games of continued Research and Development, of exploration, of every type of creative living, working for all ages and in all cultures, as humans continue exploring and venturing in space and as we humans communicate and travel with our earth and cosmic neighbors further into the universes than ever before. It can be a board game that people can play at home no matter where one lives from in nature to around the dining room table, or maybe it's an app or many apps made from information right out of this event. Protocols for welcoming UFO landings, as well as meetings with all cultures on earth and in space can be parts of this new world in space game. As we humans start to play, our consciousness will automatically rise to a higher frequency in which we will be able to see that we, and the children, **can** create for our whole new world in space game. Human consciousness will automatically be raised at all age levels and in all cultures with

understandings so that our diversities and oneness will be respected lovingly. And the egomaniacal, neurotic and pathological characteristics of our traditional cultures will heal and dissolve or be brought under a safe control as our old history drops away and a whole new “herstory” emerges. This new game is in honor of and confirmation of Felix Ziegel’s predictions that:

- Over time, the very existence of UFO phenomena will affect the life of every person on earth.
- The UFO phenomenon will be very carefully investigated at global and at all levels.
- UFOLOGY as a subject of study will be taught in schools.

TO DO:

- 1) Spread the word: WE ARE NOT ALONE AND NONE OF THEM ARE HOSTILE. WAR IS OVER.
- 2) Contact President Putin. Ask him to call leaders to sign the agreement, the Treaty on the Prevention of the Placement of Weapons in Outer Space
- 3) Network the truth about UFO and the STATE: unlimited benefits to the State, our country, and to the state of every human of every age or every condition of every culture as the news and the call goes out and the leaders sign on ,and as we play the game and the portals open with no fear.

Wernher von Braun escaped from the grip of a horrible war and came to the United States to spread his wings. Others escaped to Russia. We can all escape from the horrible scenes confronting us now on this tiny planet as we replace them. Most important is to reach President Putin because, with no Treaty, there is no way this new world in space game can be played. The pivotal message we can and must universally share everywhere is that “NONE OF THEM ARE HOSTILE.” DUH! We are still here! Those words, “none of them are hostile,” are a code, a password, for a new game to begin that will replace the old code words, “national security” which **are** the code words for yet another series of wars. This is how we can move from those who are attempting to change the words “Unidentified Flying Objects,” UFOs, to “Unidentified Aerial Threats.” THREATS! There are no threats from UFOs.

We can now change UFOs to IFOs: *Identified Friendly Objects!*

I hope you are ready. Because now is the time for us to RIDE OUR LIGHT INTO SPACE WITH OUR FRIENDS, to SHINE OUR LIGHT ON EVERYONE. As the great English poet, Gerard Manley Hopkins, said in his great poem, “The Starlight Night”

“LOOK at the stars! look, look up at the skies!
O look at all the fire-folk sitting in the air!”

LET’S PLAY
“UFO AND THE STATE”
